

The Description Pattern

									First Symbol	Comment
WHAT	×	×	×	×	×	×	×	×	×	Most important
Where						×			×	
When							×			Whenever significant
Who									×	Whenever the person changes
How										Infrequent
Why	Stick to the facts on the chart. That means What – Where – When – Who – How Save the Why for analysis.									

Follow this pattern and:

- You will always show what is happening.
- You will always show where the work is happening.
- You will show who is doing the work whenever a person is involved.
- You will show where most of the processing time is occurring.
- You won't bog your readers down in non-flow details.
